Traffic Switch on U.S. 90 at White River

Chipley, FL – Eastbound traffic on U.S. 90 over White River in Santa Rosa County will be transitioned to the newly constructed bridge Wednesday night, July 22. Drivers may encounter minor delays as crews make preparations to switch traffic.

This work is part of the \$14.7 million bridge construction project to replace bridges over the White River and Bass Hole Cove on U.S. 90 between Pace and the Escambia River Bridge in Santa Rosa County. In addition, crews will resurface the westbound lanes, make minor drainage improvements, construct guardrail and place new signs and pavement markings. To minimize congestion and decrease traffic delays there will be no lane restrictions allowed between 6 a.m. and 8 p.m. The entire project is estimated to be complete fall 2015.

All planned construction activities are weather dependent and may be rescheduled in the event of inclement weather. Drivers are reminded to pay attention to the speed limit when traveling through the construction area, and to use caution, especially at night when driving in work zones.
